

PRIYA KUMARI

Profile Summary

- Full-stack developer specialized in building SaaS platforms, scalable web applications, AI-powered tools, and mobile apps. Skilled in backend architecture, REST API development, cloud deployments, and modern UI design, delivering high-performance, user-focused solutions from concept to production.

Experience

Full-Stack Developer

SGHS Global Pvt. Ltd. — Symmatric, Moncware, ClosetCrew (formerly S.AI), SymConverge

Oct 2024 – Present
Ahmedabad, Gujarat

- ClosetCrew (Fashion-tech platform):
 - Led full-stack development for both web and mobile apps using Python (backend) and Flutter.
 - Integrated AI product recommendation system using Gemini API & FAISS, AWS S3 storage, EC2 deployments, and secure payment gateways.
 - Created automated large-scale product web scrapers for e-commerce data ingestion.
- Symmatric (Social-media platform): Developed an AI-powered caption generation system in Python to boost user engagement and implemented secure password hashing for account protection.
- Moncware (SaaS platform):
 - Designed backend modules for user authentication, partner API integrations (logistics, billing), and payment systems (Razorpay, Zoho Billing).
 - Developed and improved web admin dashboards and customer-facing portals using Flutter Web & Node.js APIs.

Data Science Intern

Brainybeam Info-Tech Pvt. Ltd.

Apr 2024
Ahmedabad, Gujarat

- Analyzed e-commerce customer behavior using Python to identify engagement drivers and retention patterns, providing insights for UX improvements.
